MasterMover®
Worldwide Electric Tug Solutions

ATT400+

All Terrain Tug

Electric Power Tug | The All Terrain Tug ATT400+

The ATT400+ is the most effective electric load mover to pull and push wheeled loads. With an application on castors and using the high performance hydraulic coupling over 5000 kg can be moved. The direct gearbox and motor supplies endless power, supported by the tug's tough steel chassis. The automatic height adjustable support wheel adds performance and operator safety as standard making it very easy to use.

Castors	Rails
Up to 5,000 kg*	Up to 40,000 kg*

*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.

Identification	
Product code	ATT400+
Recommended load weight - Castors	5000 kg
Recommended load weight - Rails	40000 kg
Machine weight including battery	365 kg
Drive type	Electric AC
Parking brake	Electromagnetic
Drive wheel type	Foam Filled
Drive motor power	2 kW
Controller type	AC
Variable machine speed	0.1 km/h - 5 km/h

Battery options
Battery pack - sealed - 102Ah 24V - fixed
Battery pack - sealed - 119Ah 24V - fixed

Charging options
Charger - internal - 12.5A 24V - 110V-240V
Charger - external - 12.5A 24V - 110V-240V

Additional equipment
Option - wireless control handset
Option - flashing safety light and motion bleeper
Option - wheel protectors
Option - two speed selector switch
Option - mast steering lock

Male coupling options
Coupling - male - height adjustable box

Female coupling options
Coupling - female - box
