MasterMover®
Worldwide Electric Tug Solutions

AT200 TOW

All Terrain TOW

Electric Tow | AT200 TOW

The AT200 TOW is perfect for safely towing loads where weight transfer is not possible, up to 2,000 kg. Attaching to any load with a draw bar, towing eye or ball hitch fitting is easy thanks to the coupling crawl function. This allows the operator to move the machine slowly and connect simultaneously. Controlled start acceleration gets the load moving safely and power steering provides effortless manoeuvrability.

Industries

Suitable for use in a wide range of applications and sectors

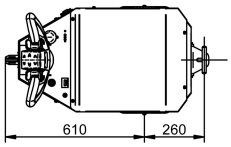

Healthcare

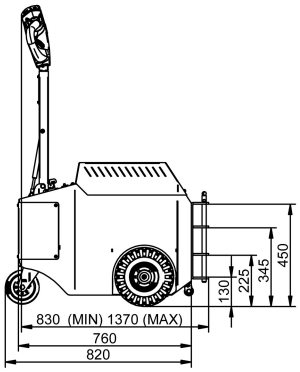

KeyBenefits

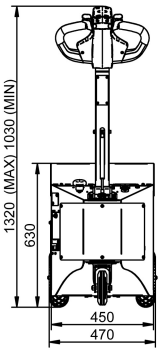

1 year full guarantee

- **FEA tested steel chassis**
- **2 Drive motors**
- **Internal weight packs**

Castors	Rails
Up to 2,000 kg*	Up to 8,000 kg*

*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.

Identification	
Product code	AT200 TOW
Recommended load weight - Castors	2000 kg
Recommended load weight - Rails	8000 kg
Machine weight including battery	292 kg
Drive type	Electric DC
Parking brake	Electromagnetic
Drive wheel type	Foam Filled
Drive motor power	2 x 0.4 kW
Controller type	DC
Variable machine speed	0.1 km/h - 5.4 km/h

Battery options
Battery pack - sealed - 28Ah 48V - interchangeable

Charging options
Charger - external - 5A 48V - 230V
Charger - external - 5A 48V - 115V

Additional equipment
Option - flashing safety light and motion bleeper

Male coupling options
Coupling - male - pin
Coupling - male - 50mm tow ball
Coupling - male - height adjustable box

Female coupling options
Coupling - female - box
